THE UNION PACIFIC RAILROAD COMPANY

Are new constructing a Railroad from OMAHA, NEBRASKA.

FIRST MORTGAGE BONDS

SIX PER CENT. IN GOLD, AT

MINETY CENTS ON THE DOLLAR This road was completed from Omahs fully equip nest on the let of January, 1807, and is fully equip nest, and trains are regularly running over it. The Company has now on hand sufficient iron, ties etc., to fluish the remaining portion to the eastern base of the locky Mountains, 192 miles, which is under contract to be gone September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Facilic, now being rapidly built eastward from Secramento, Cal., during 1870.

MEANS OF THE COMPANY. Estimating the distance to be built by the Unio Pacific to be 1.565 miles, the United States Govern mont issues its Six per cent. Thirty three Bon is the Company as the road is finished at the average rate of about \$28,250 per mile, amounting to \$41,

rate of about \$28,250 per mile, amounting to \$41, vive 600.

The Company is also permitted to issue its own First Mortgage Honds to all equal amount, and at the same time, which by special Act of Congress are made a first mortgage on the entire line, the bonds of the United States boing subordinate to them.

The Government makes a donation of 12 393 agree, elimated to be worth \$30,000,000, making the total resources exclusive of the capital, \$118,118,000; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one bundred milition dollars, of which five millions have already been paid in, and of which it is not supposed that more than lwenty-five millions at mist will be required.

The cut of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

PROSPECTS FOR BUSINESS.

PROSPECTS FOR BUSINESS. The railroad connection between Omaha and the East is now complete, and the carnings of the Union Farific on the sections already futshed for the first two weeks in May were \$115.00. These sections carnings as the told progresses will much more than pay the interest on the Company's bonds, and the through has been over the only line of railroad between the Atlantic and Pacific must be immense. VALUE AND SECURITY OF THE BONDS.

The Company respectfully submit, that the aboy statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds new offered are less than termittion dultars 547 miles of road, on which over twenty million dollars have already been expended—on 350 miles of this road the cars are new running and the remaining 187 miles are nearly completed.

READ THE CERTIFICATE OF REV. To DR. HOSTETTER:

Dear Sir :- This is to cetrify that I was taken with the dyspensia a year ago last March, and for a period of eight months, was one of the most miserable creatures you ever baheid, not being able to eat drink or sleep, and was compelled to walk the floor incestantly. I was nearly deprived of my reason, and hepe had entirely left me, all the efforts made for my recovery having proved fruitless.

By the first of November, 1865, I had become so and, to all appearance, would soon die. At this time (having rean your advertisement ) my wife prevailed upon me to try your litters. A bottle was procured. and, strange to kay, I soon commenced recovering I have taken four bottles, and am enjoying as good health now as could be expected for one of my age (about sixty years). I have no doubt that it was your Bijters alone, under Divine Providence, that effected this wonderful cure.

"In the spring of 1858 I was most severely afflict-"In the spring of 1858 I was most severely afflicted with a bard, dry cough, with its usual accompaniments of night sweats, completely frestrating my nervous system, and producing such a debitisted state of health that, after trying medical mid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this suage of matters I was prevailed upon it rough the indisence of a neighbor to try Wister's Ealsam of Wild Cherry, and, before using two bottles, the effect was almost marical. My cough entirely left me, the night sweats descrited me, hope once more clated my depressed spirits, and soon I had attained my wonted strength and vigor. WASHING MACHINE.

It is generally conceded that "the best is always he cheapest;" and that being the case great pleasure a taken in introducing to the public DOTY'S CLOTHES WASHER

which is rapidly beerfaing popular, and with this Machine the hard work of washing is mitigated to a confortable and pleasant task. The clothes are placed in hot suds, and skut in. White thus innures ed and the steam confined, the Machine is operated as seen above. Thus the work is speedily, clearly and ensity done, and that too without tearing and wearing out the clothes, which to a great extent is the cause under the old fashioned rubbing process. With a

UNIVERSAL CLOTHES WRINGER

the whole labor of washing is but a pleasant has time compared with the former mode of RUBBING AND SOAKING, and twisting and wringing. The dirt is so dissolved by the HOT SUDS that but livid campression is necessary to expel it. No family if the County should be without
